28-Korea......San Francisco

Dear Sir:-We have given careful and thoughtful consideration to the matters recently brought to our attention by yourself and others as to certain alleged charges against John W. Cathcart, the Republican candidate for City and County Attorney. Considering not only the charges, but also the untrustworthy sources of your information, we are unanimously and unqualifiedly of the opinion that sufficient reason does not exist why we should lay the matter before the Executive Committee of the Republican Party or take any steps to secure or urge the retirement of Mr. Cathcart from the ticket.

Yours very truly, (Signed) ALBERT F. JUDD, J. P. COOKE. W. O. SMITH.

### BEFORE THE CONVENTION.

Long would be acceptable to the majority (for County Attorney) and would poll the party vote, although there is a good deal of head-shaking at the idea of his close personal relations with two or three prominent members of the Democratic party.-Advertiser, political news article, Sept. 17.

The party is still casting about for a candidate for sheriff. If Lane would consent to accept the lesser position it would balance up the county ticket nicely. There is still hope that he will consent to allow his name to go in nomination if he fails to land the first place on the ticket, it having been pointed out to him by his friends that he could serve the party well by stepping into the breach and saving them a horrible turndown which is surely coming if Wise is put up. There is some talk of nominating Carlos Long for the place, but no great display of enthusiasm followed the mention of his name,-Advertiser political news article, September 13.

Crawford proclaims himself in favor of Wise for Sheriff, Carlos Long for County Attorney, and Hustace for Mayor, whom he declares will be nominated on the first ballot. The che-fa expert claims to hold in his hand eleven out of the thirteen delegates from his precinct for Hustace,-Advertiser political news article, September 14.

It is probable that Cathcart will be nominated, the only other candidate in the Republican garden mentioned being Carlos Long, ANOTHER IMPOSSIBILITY,-Advertiser political news article, August. 27. Carlos Long is said to be actively canvassing for support for Sheriff on

the Republican ticket. He concedes that he has little chance to become the party's nominee for County Attorney, and is now turning his attention to the other office.-Advertiser political news article, September 16. Carlos Long, too, has discovered that he can get no support in his efforts which he was down as the party nominee for Sheriff with John Wise as his Deputy.-Advertiser political news article, September 15.

**\*** 

FOR THE WEEK ENDED OCTOBER 24, 1908 Honolulu, October 24, 1908. GENERAL SUMMARY.

The mean temperatures were lower than those of the preceding week at all temperature reporting stations in the section, excepting Pepeekeo, Hawaii; Wailuku, Maui; Hauula and Waianae, Oahu, and Kealia,

The rainfall was above the average of ten or more years at all stations having such records in the Kohala and Puna and the central and southern portions of the Hilo district of Hawaii; also at Honokaa, Hawaii, and Waimanalo, Oahu; at the remaining stations it was below the average for the week. The changes, in inches, in the several districts were: Hawaii-Kohala +0.03 to +0.29, Hamakua -0.52 to -0.82, excepting +0.32 at Honokaa; northern Hilo -0.37 to -0.43 -0.30 to -0.55, and Kona -1.54; Maui-Hamakualoa -0.42; Oahu -0.23 to -0.47, excepting +0.07 at Waimanalo; and Kauai-Kona 2.52, and Waimea -0.03.

The greatest amounts of rainfall were reported from the Hilo and

Puna districts of Hawaii and the higher altitudes of the Ewa district of Oahu. The amounts, in inches, In the several districts were: Hawaii-Kohala o.84 to 1.15, Hamakua o.16 to 1.22, Hilo 1.50 to 5.36, Puna 3.98, Kau 0.20 .to 0.94, and Kona 0.00; Maui-Koolau and Hamakualoa 0.98 to 1.18, Hana 0.23, and Wailuku and Lahaina 0.00; Oahu-Koolauloa and Koolaupoko 0.11 to 0.90, Honolulu 0.12 at the lower levels and 1.20 at the higher, Ewa 0.08 on the plains and 0.87 to 2,66 at the higher altitudes, and Waianae 0.00; Kauai-Puna 0.19 to 0.42, Kona 0.64 and Waimea 0.24 to 0.28; and Molokai 0.02 to 0.41.

Heavy to excessive rains occurred in portions of the Hamakua, Hilo and Puna districts of Hawaii on the 20th, 21st and 22d; on the 21st Papaikou reported 3.12 inches, and Ponahawai 3.10, and during 24 nours of the 20th-21st Kapoho 3.13.

There was considerably more rainfall than during the preceding week in the Puna and the soughern and central portions of the Hilo districts of Hawaii and at the upper levels of the Ewa district of Oahu -the changes ranging from 1.06 to 3.37 inches; in the northern portion of the Hilo district of Hawaii there was from 1.12 to 1.40 inches less rainfall; elsewhere the differences were generally small.

The following table shows the weekly averages of temperature and

rainfall for the pdincipal Islands and for the Group: Temperature, Rainfall. 73.5 deg. 0.43 inch. 

Entire Group...... 7.40 deg. 1.16 inches. At the local office of the U. S. Weather Bureau in Honolulu clear to partly cloudy weather obtained with measurable rainfall on the first three days amounting to .12 inch, that amount more than during the preceding week, and .32 inch below the normal. The maximum temperature was 81 deg., minimum \*8 deg., and mean 75.9 deg., o.1 deg. below the normal, and 1.4 deg. lower than last week's. The mean daily relative humidity ranged from 62 to 77 per cent, and for the week was 68.4 per cent. Easterly winds prevailed on the 119h and 22d, inclusive, NE. and E. on the 23d, and northeasterly on the remaining days; the average hourly velocity was 7.9 miles. The mean daily barometer ranged from 29.98 to 30.06 inches, and the mean for the week-30.00 was 0.03 inch above normal.

### U. S. DEPARTMENT OF AGRICULTURE. WEATHER BUREAU.

The following data, covering a period of 33 years, have been compiled from the Weather Bureau and McKibbin records at Honolulu, T. H. They are issued to show the conditions that have prevailed, during and central and southern Hilo +0.94 to +2.80, Kapoho +2.15, Kau the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month. Month of October for 33 years,

TEMPERATURE. (1890-1907). 18 years. Mean or normal temperature, 77 deg.

The warmest month was that of 1906, with an average of 78 deg. The coldest month was that of 1903, with an average of 75 deg. The highest temperature was 90 deg., on the 10th, 1891; the 30th,

The lowest temperature was 63 deg. on the 30th, 1862. PRECIPITATION (rain, 22 years) (1877-94, 1904-7). Average for the month, 1.67 inches. Average number of days with .01 of an inch or more, 14

The greatest monthly precipitation was 4.32 inches in 1884. The least monthly precipitation was 0.44 inches in 1885. The greatest amount of precipitation recorded in any 24 consecutive

ours was 2.36 inches on the 29th, 1882. RELATIVE HUMIDITY.
